Relevant Coursework: Interaction Design, Computer Graphics, Teach Computational Thinking, Software Engineering, Data Science in Practice, Web Client Languages, Advanced Data Structures, Basic Data Structure and Object-Oriented Design

Academic Projects

SayIt Assistant | Software Engineering March - June 2023

- Collaborated in a team to construct an application programmed in Java integrating voice recognition and artificial intelligence. Application features included a login system, voice commands, prompt history, and email integration.

Data Wrangling and Analysis | Data Science in Practice March - June 2023

- Group-based research project utilizing Python to analyze and organize data. Project explored demographic and cultural populations along with geographical influence as contributing factors to company establishments.

EXPERIENCE

San Diego County Office of Education | 37ECB & Monarch July 2025 - Present

Special Education Aide

- Manage and input complex student service data for a caseload of 50+ students across 3 separate school sites using SEIS and Synergy student information systems.
- Compile specialized student records and files in strict adherence to program formats and state-mandated timelines.
- Coordinate and schedule multi-disciplinary IEP meetings, ensuring all four service providers, administrators, and parents are aligned with program deadlines.
- Established internal tracking systems via Google Sheets to document service minutes and ensure accuracy across multiple locations.

San Diego County Office of Education | Monarch August 2024 - July 2025

Special Education Teacher Assistant

- Interpreted and applied individualized education plans (IEPs), ensuring all instructional accommodations met legal and district compliance standards.
- Demonstrated understanding and patience with students in diverse or challenging environments.
- Facilitated one-on-one and small-group support to students with learning, emotional, or physical disabilities.
- Recorded and analyzed data on student service minutes, student progress, behaviors, and achievements.

San Diego County Office of Education | Juvenile Court and Community Schools August 2024 - July 2025

Substitute Teacher

- Managed classrooms across diverse age groups and learning levels ensuring a safe and productive environment.
- Adapted to shifting schedules, unavailable resources, and student behavioral challenges.
- Troubleshooted technical issues involving instructional hardware and software.
- Executed lesson plans provided by the teacher, adjusting to the needs of the students.

TECHNICAL SKILLS

Proficient in Python, Java, C++, C, HTML, CSS, JavaScript. Experience in Adobe Photoshop, Blender, and Adobe Illustrator.
